

Video Surveillance

# Are you a slave to your business?

Do you need help with:

- Stock control
- Theft
- Staff management
- Profitability
- Staff and customer safety
- Legal liability and compliance
- Getting time with family or friends?

...then you need The 3rd Eye.

The 3rd Eye is a dynamic and progressive company specialising in business surveillance solutions that improve business performance and the potential for growth.

We are industry leaders in surveillance equipment designed to enable better business management. This is achieved by using the latest in integrated digital recording equipment, information capture and remote access technology.

Our expertise has brought clarity to a variety of complex business management problems in environments as diverse as corporate, retail, food and fashion.

# The 3rd Eye business surveillance technology can improve performance in all key result areas whilst providing peace of mind for the business owner.

Our success in this specialised field has reinforced our commitment to the importance of business surveillance.

Effective business surveillance is one of the most pressing problems throughout the business world today. This is an issue that The 3rd Eye has addressed with significant success. Purchasing a flexible and easy to manage surveillance system is one of the surest ways to cost effectively increase workplace productivity.

The benefits are tangible and significantly contribute to effective business management. More importantly, we help you buy back your freedom. Our system will give you confidence that your business is secure and better still, can be viewed remotely via the web from anywhere in the world.

The 3rd Eye is unique in the surveillance industry. We are not simply a product distributor. Through our exclusive licensed dealer network our customers receive end-to-end system support and after sales service.

Yes, there is a lot to think about when choosing the best surveillance system for your business. This can be confusing. However, the solution is quite simple – It's The 3rd Eye.

Our customised solutions provide the difference between being a slave to your business and buying back your freedom – Our professional team will show you how.

Like many other business owners that have installed a 3rd Eye business surveillance solution you can trust our system to proactively defend your business against an array of threats 24 hours a day, 7 days a week, 365 days a year.

The 3rd Eye prides itself on its unique product development program. Rather than import complete surveillance products we source the most innovative technology and then assemble each system locally. The benefits to our customers are significant.

Our range of flexible surveillance equipment can be serviced quickly and efficiently by one of our expert technicians and are easily upgraded or expanded to meet your changing surveillance needs.

Business owners know they can't be watching their business all the time. Finding time to manage the bigger issues facing their business is an ever increasing challenge. We can review all the surveillance needs of your business, leaving you to concentrate on other important issues.

The integration of surveillance technology with web enabled remote access can result in the raising of productivity of employees, improved profits, protection from legal liability and most importantly peace of mind and freedom for you, the business owner.

This understanding of the many issues facing business owners today has led to The 3rd Eye's singular objective. We are in business to help our customers succeed.

Our commitment to providing business surveillance solutions continues to drive the growth and evolution of The 3rd Eye...and the businesses of our customers.

Remember those reasons that lead you to be in business in the first place?
